COMPETITIVE PRICING

You do not need to sacrifice quality roofing for a fair price. Roof Scan.ca will provide you with **superior quality roofing services accompanied by competitive pricing.** We will also consult with you to fit your individual needs and budget.

LEADING TECHNOLOGY

We can determine the **exact** areas of your roof that are damaged avoiding a complete roof repair and only making repairs where needed. That is what our thermographic technicians can do for you. Our infrared cameras work with the infrared spectrum given off as thermal heat **showing you precisely where your roof damage is.**

There is **no guessing in our system** it is 100% more reliable than a typical walk-on inspection because our technology can see more than what meets the eye. Some areas of roof may appear to be sound but just below the surface water could be pooling. We can extend the life of your roof and **save you thousands of dollars in repair.**

WARRANTIED SERVICES

Should you decide on a complete preventive maintenance program, it will come **packaged with a warranty** proving even further that you will be satisfied with our services and an extended roof life.
